

CWT 180

cut out template

Diameter: 213mm (8 3/8")

How to use this template:

- 1)** Remove the Protective backing from the "low tack" adhesive tape on rear of this template.
- 2)** Align centre lines.
- 3)** The outside profile is an accurate indication of the speaker box hole required.
- 4)** Draw around the profile, remove template and cut hole.
- 5)** The template can be repositioned a number of times if required.
